MANUFACTURER'S WARRANTY: Refer to D.I.D. Racing Chain's website for warranty details, www.didchain.com

CHAIN SELECTION: It is mandatory that motorcycles which came equipped from the factory with a sealed chain be replaced by an equivalent or better type, size and quality sealed chain. See owner's manual for OEM specifications.

WEAR LIFE INDEX: Calculated by D.I.D. with D.I.D. standard chain used as a reference. A 520ERT3 chain has a projected wear life 4.3 times longer than a 520 standard chain under similar conditions.

MXU-SEALED MOTOCROSS

- Life expectancy is more than double of a non-sealed chain
- Designed to provide the most consistent power delivery and reduce drag
- Fits vehicles with tight case clearances, like the CRF250R/X

CHAIN TYPE	CHAIN COLOR	ENGINE DISPLACEMENT	PART NUMBER	PRECUT LENGTHS	PART NUMBER SUFFIX				WEIGHT LBS PER 100 LINKS	TENSILE STRENGTH (POUNDS)	WEAR+ LIFE INDEX
					PER** FOOT	PER** LINK	CLIP C/L	RIVET C/L

UW-RING ROADRACING

- Roadracing specific chain absorbs extreme engine torque impact & transfers it into superior high speed performance
- Unique UW seals reduces the most friction amongst all sealed rings on the market
- 520UWR chain is 7% lighter compared to 520GXW chain helping to reduce rotating mass & un-sprung weight

CHAIN TYPE	CHAIN COLOR	ENGINE DISPLACEMENT	PART NUMBER PREFIX	PRECUT LENGTHS	PART NUMBER SUFFIX				WEIGHT LBS PER 100 LINKS	TENSILE STRENGTH (POUNDS)	WEAR+ LIFE INDEX

ROADRACE ONLY! 1200 miles Track usage

O-RING

- Made of oil & contaminant-resistant nitrile butadiene rubber
- Creates a flat contact patch, holding lubricating oils in place around load-bearing bushings & roller surfaces
- Wear life is significantly longer than standard non o-ring chains, economically priced

CHAIN TYPE	CHAIN COLOR	ENGINE DISPLACEMENT	PART NUMBER PREFIX	PRECUT LENGTHS	PART NUMBER SUFFIX				WEIGHT LBS PER 100 LINKS	TENSILE STRENGTH (POUNDS)	WEAR+ LIFE INDEX
					PER** FOOT	PER** LINK	CLIP C/L	RIVET C/L

MANUFACTURER'S WARRANTY: Refer to RK Excel America's website for warranty details, www.RKExcelAmerica.com

CHAIN SELECTION: Motorcycles equipped by the factory with a sealed chain must be replaced by an equivalent or better type, size and quality sealed chain. See owner's manual for OEM specifications.

WEAR LIFE INDEX: Calculated by RK with RK standard chain use as a reference. A 520XSO chain has a projected wear life 7.5 times longer than a 520 standard chain under similar conditions. Wear life indexes cannot be compared between manufacturers as their standard chains (the base index) are not the same.

CHAIN

XW-RING PERFORMANCE

- Top of the line, extreme performance chains
- Chains for dirt bikes, street bikes, and ATV's
- Unique XW-ring design provides significantly greater wear life than basic o-ring chains
- XW-ring seals have 3 contact lips & 2 convex outer stabilizers creating 6 lubrication pools
 - reducing abrasion, heat buildup & torsional friction

ZXW-RING BIG HORSEPOWER

- RK's ZXW series chains are the strongest, longest-lasting premium quality XW-Ring equipped chains available on the market today
- ZXW chains are ideal for high-speed, high horsepower performance applications
- ZXW is perfect for modified, high-displacement engines & extended swingarm machines

RX3 SERIES 420 - 428 - 520

- Pioneer in the shaped bushing technology, first in developing for motorcycle applications, proven as best for wear reduction
- Professional RX chains feature special "X"-type chromized pins
- Extended bushings, shot-peened solid rollers and steel plates provide improved durability
- 420RX3 has linkplates with a redesigned profile for increased strength
- 428RX3 and 520RX3 have linkplates with a special bevel for better engagement with the sprockets in difficult conditions
- Rated for offroad bikes up to 500cc
- Original Equipment on most of KTM, Husquvarna, Beta, TM and others
- Gold color

RH2 SERIES 415 - 420 - 428 - 520

- Developed to withstand the severe stresses of offroad riding
- Larger diameter alloy carbon steel pins and thicker plates offer increased tensile strength and fatigue resistance
- Extended bushings and solid rollers provide improved durability
- 520RH2 is suitable for supermotard or motocross up to 500cc
- Clip type link included
- Gold color

NO SEAL SERIES 520-525-530 RT

- No Seal street chain
- Larger diameter case hardening steel to increase wear resistance
- Special extended bushings increase the press-fit into the inner link plates of the chain to ensure a high resistance to chain kinking
- Solid rollers provide improved durability
- Shot peening of plates, pins and rollers to increase the fatigue resistance
- All chains are pre-stretched to increase fatigue and wear resistance
- Ideal for street bikes up to 500cc
- Clip & rivet type connecting link included
- Gold color

Z-RING SERIES 520 - 525 - 530

- Z-ring chains feature the patented Z44 sealing rings, which greatly improve performance and wear life, making previous X-ring and Z-ring chains obsolete
- 50% reduction in friction compared to traditional O-rings
- Constant lubrication from special high-temperature grease in the critical pin/ bushing area provides long life
- High-carbon alloy pins to increase shock resistance and stiffness
- Increased roller thickness to prolong durability
- Thicker outer plates and quad-riveting for greater tensile strength
- Original equipment on most of Aprilia, BMW, Ducati, KTM, Husquarna and others
- Ideal for street bikes and superbikes up to 1300cc
- Rivet type link included
- Clip type and Hollow rivet type connecting links also available; hollow type rivet connecting link works with many different chain tools
- Gold color

ZRP

Specifically designed for application on high powered bikes, these chains are able to offer exceptional performance thanks to the patented Z-Rings.

Assembled with high alloy steel pins and plates, solid bushings and rollers, shot-peening of plates, pins and rollers and pre-stressed for performance enhancing, assuring excellent resistance to mechanical stresses of the latest superbikes.

ZRT

Aimed to tourist road use, these chains ensure high mileage with reduced elongation thanks to the seal.

Assembled with solid bushings and rollers, shot peening of plates, pins and rollers to increase the fatigue resistance. Submitted to performance-enhancing pre-stretching, they are available in several quality levels to ensure the right type of chain for every application.

OFF-ROAD ENDURO

Designed and developed to withstand the severe stresses caused by Dual Purpose bikes for use on & off road. Produced with Z-Ring or O-Ring to extend lubrication intervals, while maintaining a low pin length and light running characteristics. Assembled with high carbon alloy steel, solid bushings and rollers, shot-peened plates, pins and rollers to reach high fatigue limit.

QUAD SERIES

- The ultimate ATV chain, developed to withstand the severe stresses of ATV riding, yet lightweight with maximum performance
- QUAD chains feature the patented Z44 sealing rings, which greatly improve performance and wear life, making previous X-ring and Z-ring chains obsolete
- 50% reduction in friction compared to traditional O-rings
- Constant lubrication from special high-temperature grease in the critical pin/ bushing area provides long life
- High-carbon alloy pins to minimize wear and increased roller thickness to prolong durability
- Thicker outer plates and quad-riveting for greater tensile strength
- All parts are shot-peened for maximum fatigue resistance,

and all chains are pre-loaded for superior performance and minimal adjustment

- Suitable for ATVs up to 900cc
- 36000 N (7868 lb) tensile strength
- Gold color

CHAIN CUTTER / PRESS-FIT TOOL KIT

- Carrying box contains all required parts
 - Press fits all 40, 50 and 60 series chain
 - Cuts all 40 & 50 series chain
 - SKH9 tool steel grade cutting pin
- *Replacement parts for model UTC4060 and UCT2100 chain breakers are interchangeable
