

SPROCKETS

- JT Sprockets is the world's number one aftermarket sprocket manufacturer. All 7075 T6 Aluminum Alloy Competition sprockets are computer designed to combine the ultimate strength at minimum weight and they are CNC machined to aviation tolerances.
- All competition sprockets - marked as SC sprockets - come with meniscus shape self-cleaning grooves on all the teeth on both sides. The sprockets are sand blasted to reduce material surface tension and then finished by anodizing to a superb satin-silk effect.
- Steel front sprockets: Made of Japanese SCM415 chromoly
- Steel rear sprockets: Made of Japanese C49 steel
- (A) Alloy rear sprockets available: Made of Austrian 7075 T6 aluminum
